

GENERAL NOTES

1. All members must display current Membership Discs when they are on the course.
2. Ladies may obtain a WHS competition handicap by returning score cards (9 or 18 holes) totalling 54 holes from the red or yellow tees.
3. Gentlemen may obtain a WHS competition handicap by returning score cards (9 or 18 holes) totalling 54 holes from the white or yellow tees.
4. It is no longer a requirement to return three cards each year to maintain a handicap, but it is each player's responsibility to return acceptable scores reflecting their demonstrated ability.

THE BOOKING SYSTEM

1. All tee times must be booked in advance through the booking system on the ClubV1 Members Hub.
2. Tee times become live on the booking system at 8 a.m. three days in advance e.g. Tuesday at 8 a.m. for times on Thursday.
3. There is a ten minute interval between times and matches start on the hour and at ten past, twenty past etc.
4. All matches must start at the first tee and have priority.
5. The clock in the Clubhouse window is the starting clock.
6. Players intending to play 18 holes should book a single starting time.
7. Players continuing their round should filter on to the 10th tee at 5 minute intervals and follow the match starting at the first which has priority.

8. If planning to play more than 9 holes, members should check that the tee will be open to allow a second nine. It may be shut for competitions, matches or meetings. It would be advisable in **this particular case** to book a second starting time when the tee re-opens.

The tee may be blocked off at certain times on competition days or when matches are being played. Members should check in advance through the booking system. The aim is to ensure that competitors have time and space to play and that the tee should be open as far as possible for other members to play.

PLAYING IN COMPETITIONS

Members should enter competitions by following the correct procedures for that competition and within the set times for entry to the competition to ensure they are qualified to play.

Failure to turn up for a competition for which an entry has been made may result in the member being barred from playing in similar competitions. It is the responsibility of the individual member entering a competition to ensure that he/she has confirmed his/her starting time.

All competitors should arrive at least 15 minutes prior to their allotted tee time.

Club competitions are normally played from white tees (gents) and red tees (ladies). All other games must be played from **yellow tees** except as permitted by Council. See seasonal notice in clubhouse.

Scorecards **must** be signed and agreed on by players and markers and returned.

4 BALL RESTRICTIONS

From 1st March to 30th September no 4-ball matches are allowed on Tuesdays, Wednesdays and Saturdays when a Ladies' or Gentlemen's Competition is being played.

PACE OF PLAY

Members should always aim to avoid falling behind the game in front by a hole or more. Players should be aware if their match is holding up matches behind them. It is so helpful if players invite a following match to play through at an appropriate moment. Members should also give those playing ties priority and let them play through when appropriate. We cannot all play at the same pace but we can all be aware of our pace of play.

DRESS REGULATIONS

Members and their guests are asked to dress in a manner appropriate to the game of golf.

Smart casual dress is required. Denim jeans are not allowed. With the exception of juniors, golf shoes are required on the course. The Secretary and members of the Council have the right to refuse entry to any person who, in their view, is not suitably dressed.

Members are asked to co-operate with this by observing an acceptable standard of dress at all times.

The sharing of clubs is forbidden.

We would ask for the cooperation of members in following these procedures and exercising good sense to maintain the friendly atmosphere of the Club.

RAVELSTON GOLF CLUB LTD

FIXTURE CARD 2024/2025

PLAYER SCORE INPUT (PSI)

It is the responsibility of all competitors to return a card following a strokeplay competition round and to follow the required procedures for inputting scores.
A player is responsible for submitting acceptable scores for handicap as soon as possible after the round is completed whether home or away.
